

## ATTENTION ALL PATIENTS NOTICE OF TWO NEW POLICIES EFFECTIVE August 1, 2011

### NEW FEE SCHEDULE

To keep pace with the Wisconsin market and increasing costs, KCHC medical and dental fees will increase as of August 1, 2011. This will have little or no impact on most patients. For insured patients, most co-pays remain the same as before. For uninsured medical and dental patients who qualify for sliding fee, you will be asked to pay a flat co-payment as follows:

<u>Private Pay Plan</u>	<u>Federal Poverty Level %</u>	<u>Co-Pay</u>
Plan A	0 – 100%	\$25
Plan B	101 – 125%	\$40
Plan C	126 – 150%	\$50
Plan D	151 – 175%	\$60
Plan E	176 – 200%	\$70
Plan F	> 200%	Full Fee

With the exception of certain high cost elective services such as surgical procedures, dentures, crowns, and bridges, patients will not be asked to pay anything other than the co-pays listed above. To carry a balance, a patient must enroll in and comply with a formal payment plan.

---

### IDENTITY THEFT PREVENTION PROGRAM

The Federal Trade Commission requires KCHC to verify every patient's identity, address, and insurance coverage. At the time of appointment, each patient will be asked to provide the following:

- A. A current driver's license or other photo identification. If the photo identification does not show the patient's current address, a utility bill or other official correspondence confirming the patient's current address should be provided. (If the patient is a minor, the patient's parent or guardian should bring the information listed above.)
- B. A current insurance card.
- C. For the initial appointment, the patient will be asked to provide KCHC their Social Security number. (Patients without Social Security numbers will **not** be denied services.)
- D. Verify the validity of any requests for changes in billing addresses.
